

# INSTALLATION INSTRUCTIONS

## ADA DECAL LOCATIONS

### Decal Installation

1. To place decals in the proper locations on the ADA keypad, refer to the figure above. Each side of the unit has three groups of four buttons. The decals are placed on the ADA keypad in the locations shown.
2. The top group (1-4) is connected to the far left group on the upper panel.
3. The middle group (B1-B4) is connected to the middle group (yellow buttons) on the left side of the upper panel.
4. The lower group (5-8) is connected to the right hand group (closest to the center) on the left side of the upper panel.
5. The top group (9-12) on the right side, is connected to the left hand group (closest to the center) on the right side of the upper panel.
6. The middle group (B5-B8) is connected to the middle group (yellow buttons) on the right side of the upper panel.
7. The lower group (13-16) is connected to the far right group on the upper panel.
