

TECH TIP

Product: Cold Fusion and Flavor Fusion

Subject: Nozzle and Diffuser Removal

Date: December 18, 2009

Description of Potential Issue:

Incorrectly removing the nozzle and diffuser may cause damage or breakage to the diffuser or nozzle.

Corrective Action:

1. Remove the outer nozzle from the unit by rotating counterclockwise and pulling downward
2. Remove the inner diffuser by pulling straight downward.

CAUTION

DO NOT TWIST OR “ROCK” THE
INNER DIFFUSER DURING REMOVAL

TWISTING OR “ROCKING” OF THE
INNER DIFFUSER DURING REMOVAL
WILL RESULT IN DAMAGE OR
BREAKAGE TO THE DIFFUSER
