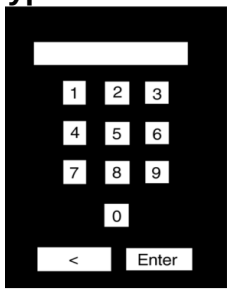
Adding/Removing Water and Extra Flavor Shot Icons from Coverflow

Note: This application will allow you to enable/disable the plain water, carbonated water, and extra flavor shot icons from your coverflow.

Access Service Screen

Tap each corner of the merchandiser screen in a counterclockwise direction, starting in the upper right corner to form a "C."

Type Service Pin



Type in your passcode to access the Service menu. The default passcode to access the entire service menu is "3333," which will be yours unless you have changed it.

View Service Screen

Select the "**Unit Setup**" button.

Unit Setup Screen

Select the "**Water Setup**" button.

Water & Flavor Information Screen

In the Water & Flavor Information screen you will see 3 circles titled "**Enable**" below each coverflow icon.
Deselect the circle to disable the plain water, carbonated water, or extra flavor shot icon from appearing on the coverflow.
Select "**Save**" when finished editing.
