

PERFORMANCE*

- ETL certified – conforms to NSF/ANSI standard 18
- One gun – dispenses multiple products (soda, juice, energy, pungent flavors)
- .380 ID inlet fittings for increased flow
- Large non restrictive fluid channels and .165 ID barrier tubing throughout
- Superior product mix and cup stratification
- Nozzle and diffuser designed to eliminate product carryover
- Precision engineered, molded flow controls and ratio screws
- Meets industry standards for ratio on all current and high yield syrups

**FLOW CONTROL
MODEL**

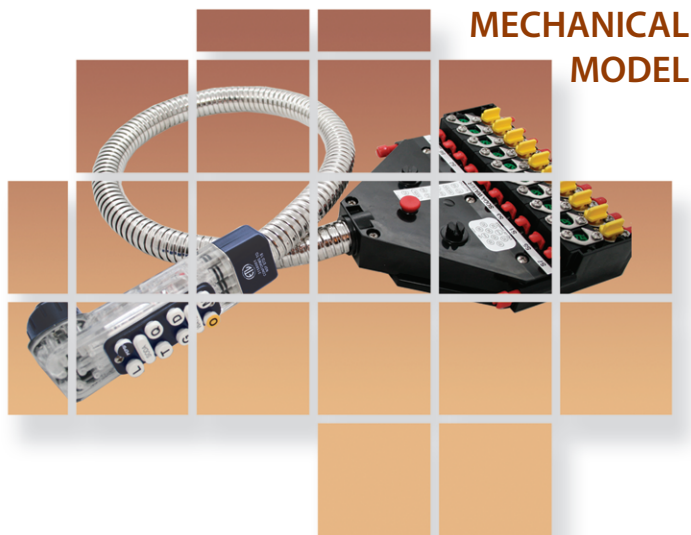

DURABILITY*

- Manufactured from high grade durable “cast acrylic” material
- Robust input module and manifold design
- Diffuser head embedded in valve for increased strength and durability
- Embedded stainless steel collar to prevent sheathing separation
- Internally labeled barrier hose throughout
- Extended life double o-rings to prevent leaks
- Holster engineered with ½” drain and quick release for removal and cleaning

**3158001
CONFORMS TO
NSF STD 18**

THE **NEW** IMAGE IN DISPENSING TECHNOLOGY

**MECHANICAL
MODEL**

SERVICEABILITY*

- Flow Control models are angled for easy access to adjustment screws
- Manifold maps the position of each inlet line to the correct position on the handle
- Secure – quick release bracket
- Positive shut offs – no tools required
- Color coded shut offs and adjustment screws
- Removal and reinstallation of bottom plate will not activate valve springs
- Two piece heel plate on all models

*All categories apply to both models.
